DETAILED ACTION

1. The claims 1-23 are pending in the instant office action.

Restriction

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-14, drawn to method of purifying targeted polypeptide having glucose dehydrogenase activity using Ion-exchange Liquid chromatography.

Group II. Claims 15-23, drawn to method of purifying glucose dehydrogenase using combination of hydrophobic and ion-exchange chromatography.

3. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups II-I do not share same technical feature because they involve method steps comprising different steps and use different products.

Furthermore, the technical feature linking group I-II appears to be that they all relate to chromatographic purification of protein. The chromatographic purification of protein does not constitute a "special technical feature" as defined by PCT Rule 13.2, because it does not

claim a feature, which defines a contribution over the prior art as CYP24 chromatographic purification of protein is taught by Groups Imai et al. (J. biochem. 1976, vol. 80, pp 267-276).

4. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
